Music

Competitors must provide music for all events, as appropriate.

Competition music for all events that require music must be submitted electronically via the online registration system by the music deadline of 9/16/2016 at 11:59 pm via Entryeze.

After you have paid for your events, the system will prompt you to upload your music for each event that requires music. If your music is not available at that time, you can log out of your account and return later to upload your music by going to the "competition" tab and then selecting "my music".

Your music must meet the following criteria. If you have questions about what format you have, please contact your coach and get a new version of your music that meets the criteria listed below.

Music Criteria:

- File Format: **MP3** (the online system will automatically check this)
- **Bit Rate: 192 kbps** or higher (this will be checked by the music chairperson and they may request you upload a corrected file)
- **Sample Rate: 44,100 kHz** (this will be checked by the music chairperson and they may request you upload a corrected file)
- Leaders and trailers (the silence or "dead space" before and after the actual start and end of the program music) may not exceed two (2) seconds. We prefer that there be **NO** leaders or trailers at all. Excessive leaders and trailers may disrupt the playing of the music during competition.

Competitor's practice ice CDs are to be turned in to the Ice Monitor just prior to the competitor's official practice. The official back up competition music CD turned in at the Registration Desk is for use during the event and **may not** be retrieved for Practice Ice use.
