## **Learn To Skate U.S.A. Competition**

### **March 11<sup>th</sup>, 2017**

#### **Addendum to Jumps Challenge Event**

After warm up the competitors will be called in the skating order. The skater may attempt the specified jumps in any order. The skater may, but need not attempt each jump a second time. The best effort of the skater is the jump that will be scored. No jump may be attempted more than twice. All jumps must be completed within the time set for the event.

It is usual for skaters to skate the jumps with connecting steps but that is not required and the connecting steps are not scored. Skaters are not prompted by the referee.

There is no music. The event is half ice.

Once the skater is called the announcer will say: "You may begin." Thereafter the skater skates until the jump attempts are completed or time expires.

A fall on connecting steps does not count as a jump attempt unless the fall occurs on the entry or exit edge.
