Theatre on Ice Rules:

THEATRE ON ICE EVENTS:

Format: Theatre On Ice consists of two programs the free skate and the Choreographic Exercise (CE), which is similar to a short program in singles skating. These two events are judged separately. All levels will be judged on both programs for a combined score at the Theatre On Ice National competition and Nation's Cup.

Theatre On Ice teams may have no fewer than eight members, all of whom must skate at some point during the number. A team may have an unlimited number of alternates but no more than 24 may skate in a competition. Open-level teams are limited to a maximum of 20 skaters on a team. Curtain: There will not be any curtain used for the Theatre On Ice events, except at the National Theatre On Ice competition.

Theatre On Ice is a creation using all aspects of figure skating, incorporating a theme, emotion or story, enhanced by music. It is a package that includes five dimensions:

- Theme
- Music/Sound
- Choreography/Skating movements
- Performance/The rapport between the skaters and/or sub-groups of skaters
- Costuming, props and/or scenery

Choreographic Exercise:

All team members must wear all black. The focus must be on the three elements described.

Teams create a program based on three elements for the 2014 season:

- **Theme: Memory:** Clearly demonstrating the concept of memory as a theme throughout the piece. References can be drawn from the biological, psychological, social, cultural and historical meanings. For example, honoring a memory of someone (tribute), memory loss, Berlin Wall, etc. Memory must be demonstrated in purpose by the choreography, body movement, expressions and connection to the audience visually.
- **Choreographic Process: Retrograde/Auto-reverse:** Repeating a motif, gesture, or larger sequence of body movement and skating movement in reverse order. (Utilization of ice space can also be used to accentuate the process, but must also include a sequence of movement.) Same retrogression as used in synchronized skating and IJS.
- **Body Movement/Gesture: Suspension:** A hovering/delay in space (weightlessness) before a drop of movement (swing or release) caused by gravity. Using body weight and density as it relates to Energy put into the body movement and technical skating elements with the emphasis on

the delayed nature of suspension. For example, a roller coaster. Suspension can be demonstrated in lifts, it must also be shown with variety of body movement by individuals and/or groups.

Free Skate Program:

The Free Skate performance should be original, and express a theme, emotion or story.

Vocal music is allowed.

Teams may use costumes, props and scenery to help tell their stories. (See competition section in this guidebook for more information on props and scenery)

There is no limit to the number of jumps allowed in a program. However, jumps must have a meaning in relation to the theme and should not be gratuitous. Solo, pair, dance or synchronized elements also must have meaning within the theme.

JUDGING FOR THEATRE ON ICE EVENTS: For all Theatre on Ice competitions sanctioned by U.S. Figure Skating, the panel of officials should include no less than one event referee, one ice referee, and five judges, although seven to nine judges is recommended for National and International Competition.

FREE SKATE: Two marks, each between 0 and 6 (given in increments of 0.1), will be awarded.

1. Technique of performance

The following criteria must be considered by the judges when awarding this mark:

- a. Utilization of the ice, utilization of space and the organization of formations.
- b. Quality of movements including body positions.
- c. Quality of ensembles and rapport between the skaters themselves and group skaters.
- d. Overall strength of the skaters on the team as a whole.

2. Artistic Mark

- a. Originality and creativity of the performance as a whole as well as its ability to be interpreted by observers.
- b. Establishment of a presence by the skaters individually as well as the intensity and impact of the performance as a whole.
- c. Creation of a universe taking into account the choreography and its execution.

CHOREOGRAPHIC EXERCISE:

- a. Clarity of the prescribed theme
- b. Clarity of the prescribed choreographic process
- c. Clarity of the prescribed gesture (movement)
- d. Interpretation of sound/music to support the intent of the program.

Technical Mark:

- a. Mastery of gliding and quality of edges.
- b. Speed, variety and amplitude of steps and turns, jumps, rotations and attitudes.
- c. Quality of execution of movement: body hold and placement.

- d. Consistency of the 3 choreographic elements with music and theme.

THEATRE ON ICE TIMING: Timing will begin with the first purposeful movement of any competitor or member of a team. For performances that are over or under the time allotment, standard time deductions will apply as per U.S. Figure Skating's current rulebook. Timing will cease when the last skater comes to a complete stop. Standard time Reductions will apply as per U.S. Figure Skating rule 4914. A 0.1 will be deducted in each mark for up to every 10 seconds lacking or in excess of the prescribed range.

Upon taking their position on the ice, a member of the team should raise and lower either their right or left arm to signify that the team is ready to begin their performance. This movement does not count as the "purposeful movement" as noted above.
