

Skate Milwaukee Seminar

(open to entries of Skate Milwaukee)

Friday, July 13 Kern Center

12:00 p.m.

“A New GOE scale—GOE +5 -5”

“How does it work and how can you make it work for you”

What’s new and important? There is a new GOE scale of judging.

Every element will now have the possibility of achieving a +5 -5 GOE (instead of the old +3 -3 scale).

How does the judge use this new scale?

How can you use this new scale to your advantage?

Our top National/International judges will share their knowledge and approach to this brand-new information.

You will be given an opportunity to ask questions that could bring you to a higher level in this new scale and higher scores. Get a head start with the clear understanding of what the judges are looking for.

Plan to make this a special part of your Skate Milwaukee experience.
