MFSC Exchange Policy

Summer 2017: MFSC will offer on-ice credits automatically. NO off-ice credits will be available for the summer session.

Please be aware of our current Ice session rules that may affect your skater with our exchange policy:

On a potentially full ice session, skaters who are contracted for that session have first priority to skate on it, provided they arrive within the first 15 minutes of the session. Walk-on skaters have priority, based on the time that they check in with the monitor, requesting to skate on that session. On a full session, if a contracted skater has not checked in by the time the session begins, a walk-on skater may take the ice, and skate that session. If the contracted skater arrives before the 15-minute time limit, they may take the ice, and the walk-on skater must leave the session. No charge will be made to the walk-on skater. If a contracted skater arrives after the 15-minute time limit, and is closed out of their session, they will be issued exchange credits. Reasonable effort will be made by the Monitor of that session to see if contracted skaters are present.

Guidelines for Requesting and Utilizing credits

- Credits must be taken or used for the entire scheduled Ice session or On Ice Clinic.
- There are no off-ice credits available.
- Credits may only be requested earlier in the week in person with the monitor during the week (beginning Monday) of your session. There is no pulling forward from a future week.
- All exchange credits EXPIRE at the end of the current contract period (no carry-overs).
- Ice session 60 minute exchanges earn 4 ice credits for each session
- On-Ice 30 minute clinic exchanges earn 2 ice credits.

Please visit our website www.mentorpsc.org to contact a specific committee
